Giray Keskin, Furkan Cevdet Anduv

# 1. User Manual

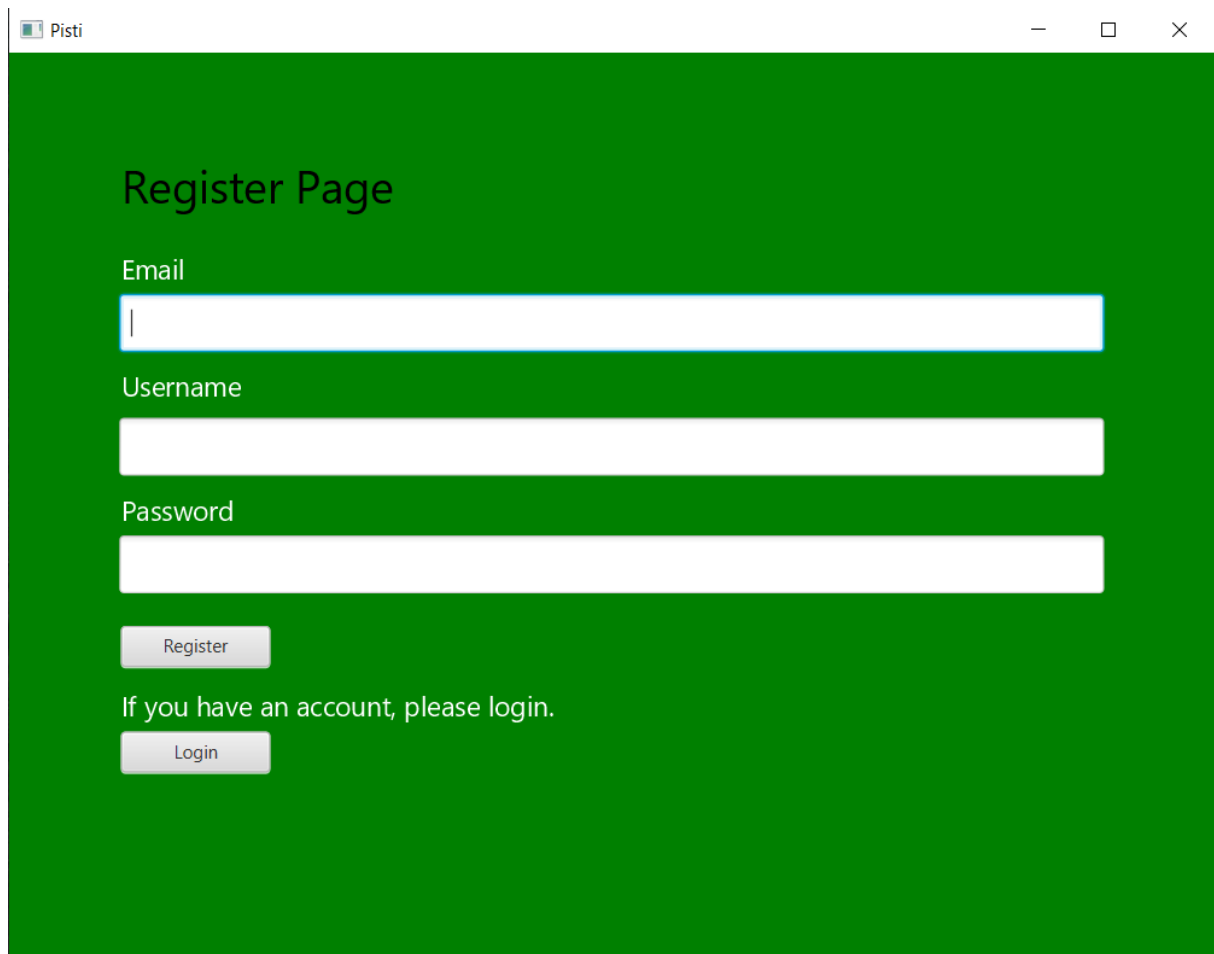

## 1.1 Login and Register

When the application launches, the first screen appearing is the login screen.

*Figure 1: Login Screen*

A player can login using their credentials. If they are not registered, they can register clicking the "Register" button.

*Figure 2: Register Screen*

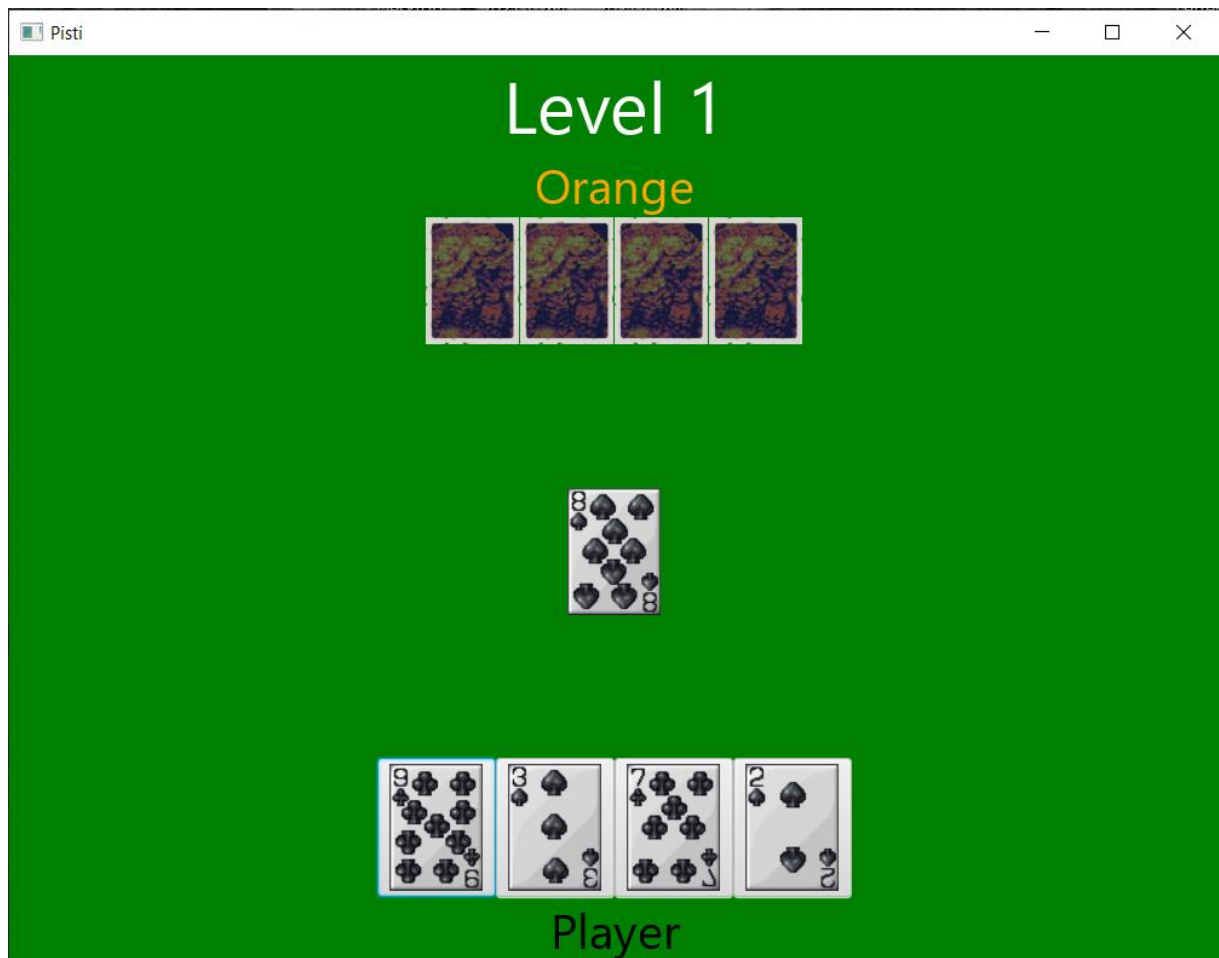

The game can be played without an account by clicking the “Skip Login” button in Login Screen.

## 1.2. The Game

Game can be simply played by choosing a card to play from the hand.

Beware that there are no animations implemented and when you play a card the AI will play his card instantly.

Ctrl + 9 can be pressed to cheat the game by skipping the current level.

*Figure 3: Game Screen*

## 2. Difficulty Strategies

At level 1, AI will play a random card from her hand.

At level 2, AI will try to match a card from his hand with the card on the top of the table.

At level 3, AI will try to match a card from his hand with the card on the top of the table and memorize what is played in order to use her Jack's carefully.
